Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Arguments

1. Applicant's arguments with respect to claims 1-26 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-26 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Schein et al. (U.S. Patent No. 6,002,394).

Referring to claim 1, Schein discloses transmitting program guide information together with a broadcasting program (Column 12, Lines 20-24). Schein also discloses commercial information that corresponds to program guide information (Column 20, Lines 51-54), which is displayed on a program guide screen in a receiver (Column 8, Lines 35-43) is transmitted with program guide information (see transmitting a advertisement database in Column 12, Lines 28-29 and Column 7, Lines 65-67).

Art Unit: 2611

Schein also discloses transmitting additional commercial information when a cursor is moved onto a program column of said program guide screen (Column 24, Lines 1-20 and Figures 21A-21F).

Referring to claim 2, Schein discloses that the commercial information contains image data (Column 11, Lines 56-57).

Referring to claim 3, Schein discloses that a digital signal can have separate bitstreams that contain video, audio, and program guide information (Column 6, Lines 51-60), and that data related to a television program guide title is related to an advertisement (Column 26, see Claim 14).

Referring to claim 4, Schein discloses that commercial information can be accessed on a remote computer via the Internet (Column 20, Lines 4-9), and that a computer on a computer network (Internet) can be given an IP address (Column 18, Lines 20-43).

Referring to claim 5, Schein discloses hierarchical levels for program schedule data (Column 9, Lines 20-67 and Column 10, Lines 1-28) for a program guide, which contains advertisements (Column 22, 10-18). Schein shows that a first hierarchical level (Channel Data Table) is smaller by holding only the channel required for viewing at a specific subscriber's receiver, while the second hierarchical level (show list) contains start times and additional scheduling data for 24 hours worth of program for every channel listed in the Channel Data Table (Column 9, Lines 20-62 and Figures 5 and 6). It is inherent that the Channel Data Table is smaller than the Show List Table because

Art Unit: 2611

of the large amount of data storage that would be required to hold 24 hours or weeks worth of show times for each program contained in the Channel Data Table.

Referring to claim 6, Schein discloses a receiver for separating program guide information from a received broadcasting signal (Column 12, Lines 41-44). Schein also discloses displaying commercial information in a part of a display area (see Figure 21A and Column 24, Lines 1-20), and an electronic program guide screen including program columns corresponding to a plurality of programs based on the separated program guide information (see Figure 21A). Schein also discloses when a cursor is moved onto one program column that plural items of commercial information are sequentially displayed on a program guide (Figure 21C and Column 24, Lines 1-20).

Referring to claim 7, Schein discloses communicating with an external computer through a computer network (Column 20, Lines 4-9). Schein also discloses displaying further detailed information from an external computer based on address information to display the information when a cursor is moved onto one of the program columns (Figures 21B and 21C and Column 18, Lines 20-43 and Column 19, Lines 51-63).

Referring to claim 8, Schein discloses selecting a program column on a program guide, and displaying program details corresponding to the program column selected and to sequentially display plural items of commercial information included in the program in a part of the display area (see Figures 21A, 21B, and 21C and Column 24, Lines 1-19).

Referring to claim 9, Schein discloses displaying a commercial details screen (see top left window explaining NFL cap in Figure 21C).

Art Unit: 2611

Referring to claim 10, see rejection of claim 9.

Referring to claim 11, Schein discloses sponsors for presenting commercial information (Column 22, Lines 10-18).

Referring to claim 12, Schein discloses an address of a computer on a computer network, which provides detailed information of a commercial (Column 20, Lines 1-17 and Column 18, Lines 20-43).

Referring to claim 13, Schein discloses communicating with an external computer on a computer network (Column 20, Lines 4-9). Schein also discloses extracting the detailed information of the sponsor's commercial from the external computer by using the address information of the computer (Column 18, Lines 20-43 and Column 20, Lines 51-54).

Referring to claim 14, see rejection of claim 2.

Referring to claim 15, see rejection of claim 3.

Referring to claim 16, see rejection of claim 6.

Referring to claims 17-21, see rejections of claims 8-12, respectively.

Referring to claim 22, see rejection of claim 16.

Referring to claims 23-24, see rejection of claims 20-21, respectively.

Referring to claims 25-26, see rejection of claims 25-26, respectively.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Young et al. (U.S. Patent No. 5,479,266) discloses a user interface for a

Art Unit: 2611

television schedule system.

Alten et al. (U.S. Patent No. 5,781,246) discloses an electronic television program guide schedule system and method.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
